

## The LifeShare Mobile App

LifeShare Technologies is pleased to announce the release of the LifeShare Mobile App. The app allows you to manage your loved one's LifeShare from the convenience of your smartphone.

### Downloading the App

The LifeShare app is available for both Apple and Android operating systems and can be found in the app store by searching "LifeShare Family".

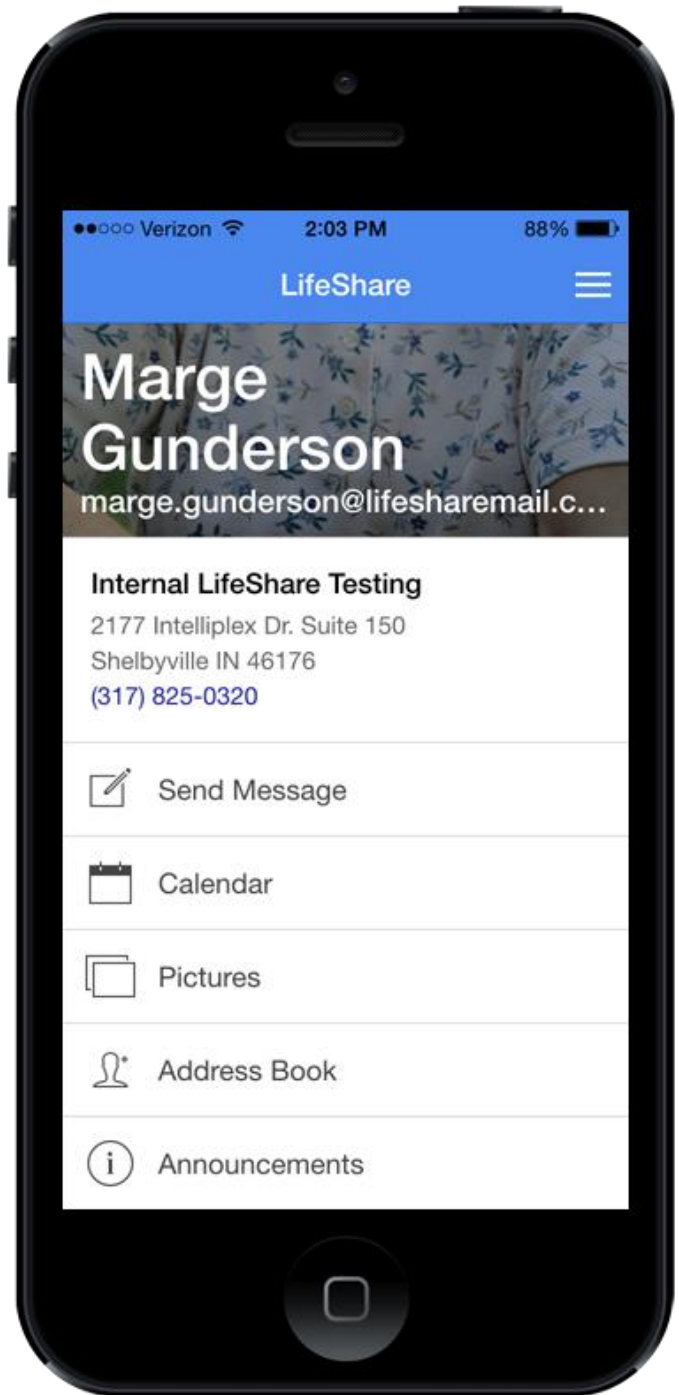

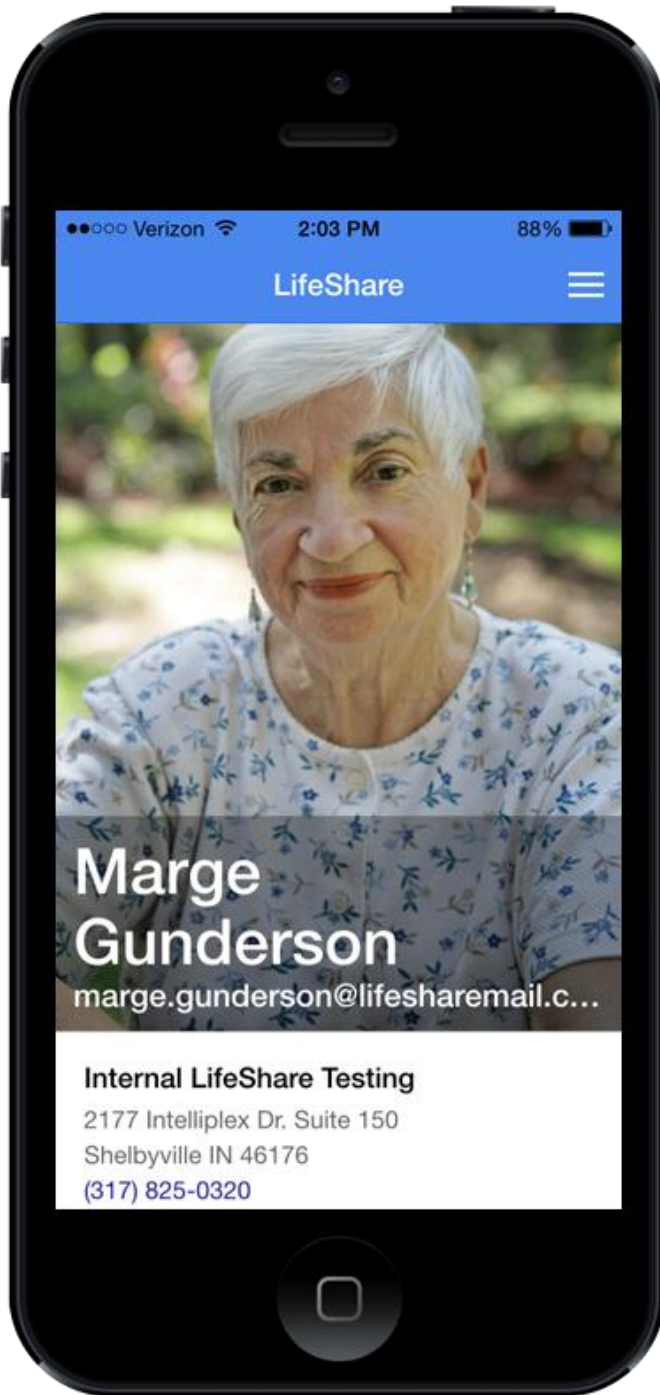

### Creating Your Family Manager Account

In order to become a family manager for a LifeShare user, you must have an account created. Speak with the activities director of the facility or call LifeShare Support at (317)-825-0320 to have this done. All that is required is an email address; after the account is created you will be sent an email with a link to the sign in page and also instructions for downloading the LifeShare Family Mobile App.

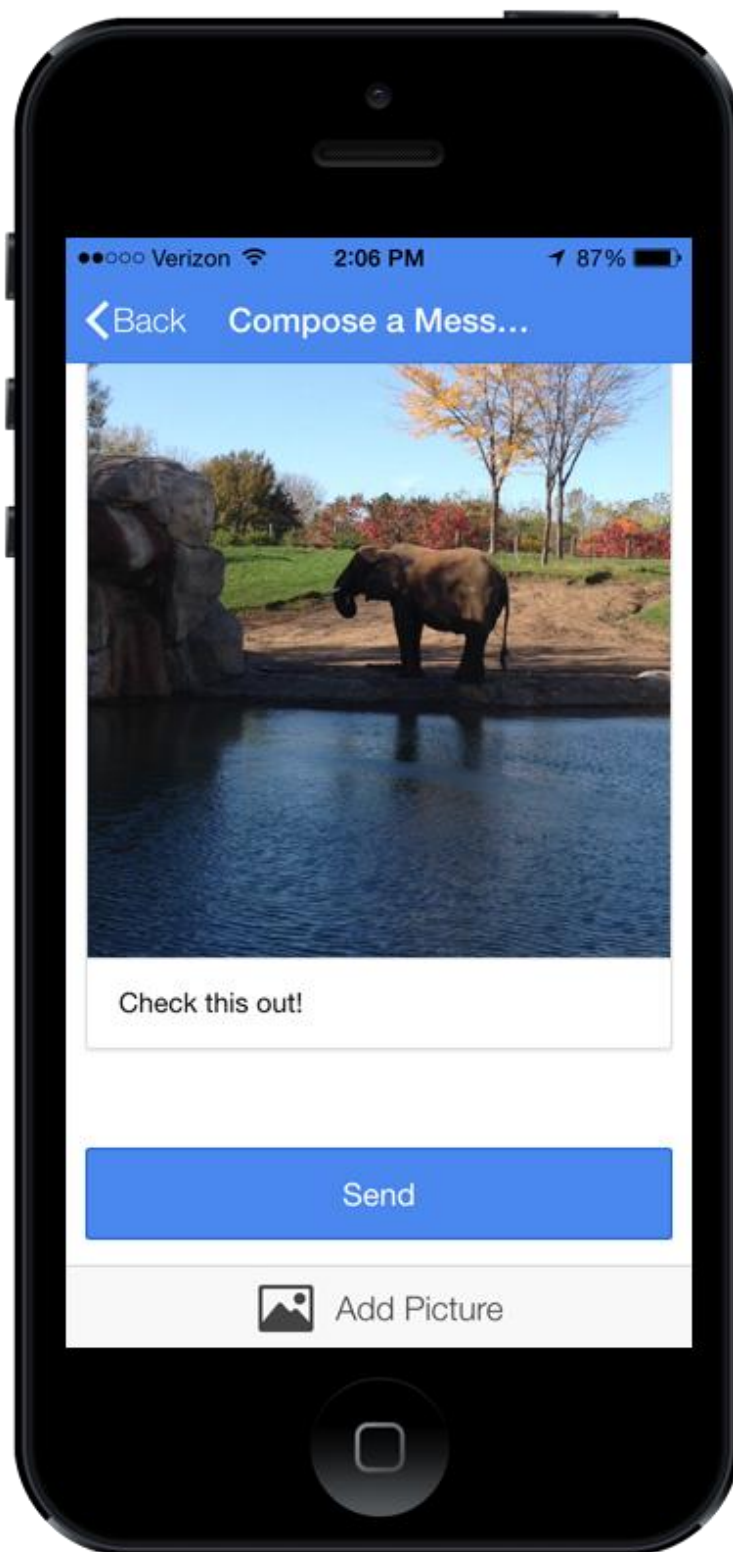

## Using the Mobile App

The mobile app allows you to directly send a message to your loved one's LifeShare, check the calendar of activities, announcements, dining schedule, and also choose which pictures are displayed on the television.

## Sending a Message or a Photo

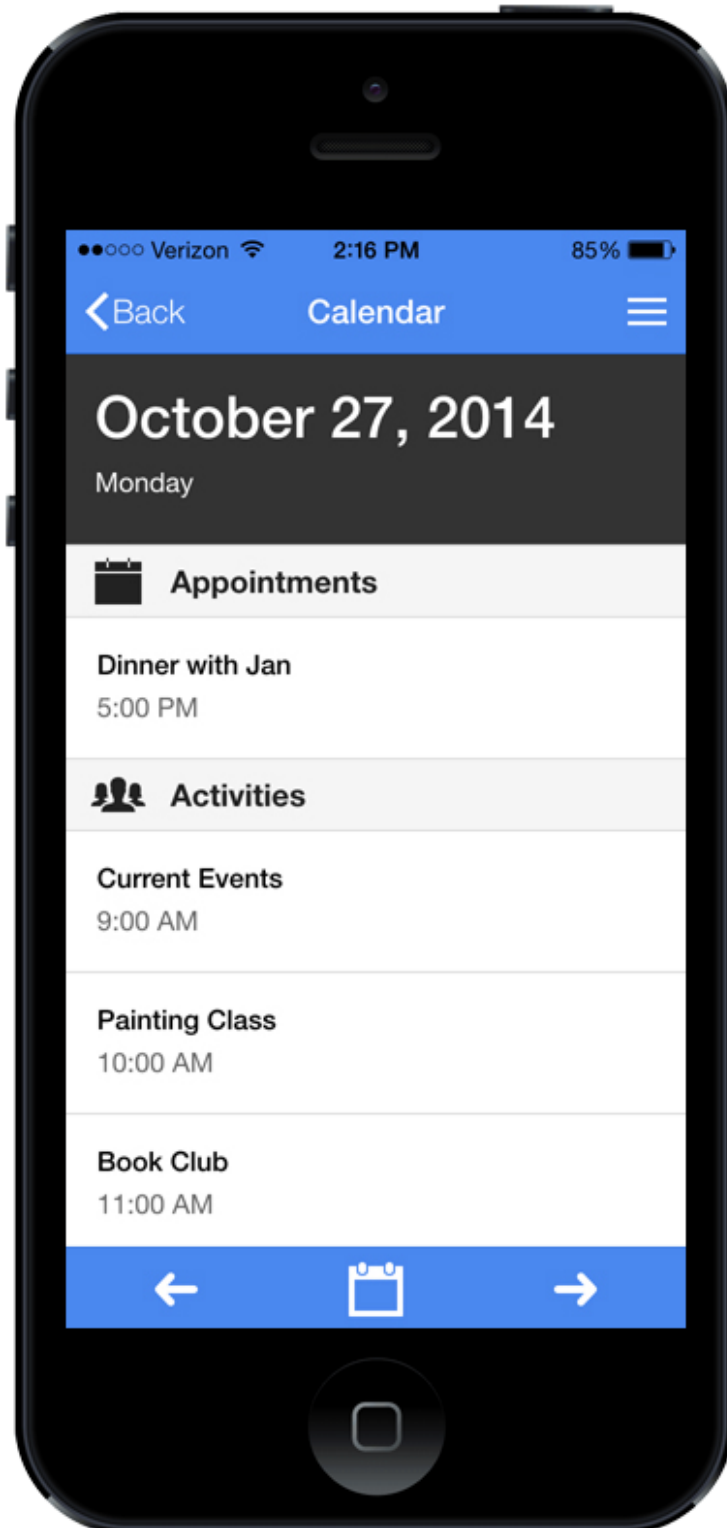

The LifeShare app allows you to directly send pictures and messages to your loved one's LifeShare account. The app has the capability to access the library of photos from your smartphone so that they can be seen by the LifeShare user as well.

## Accessing the Calendar

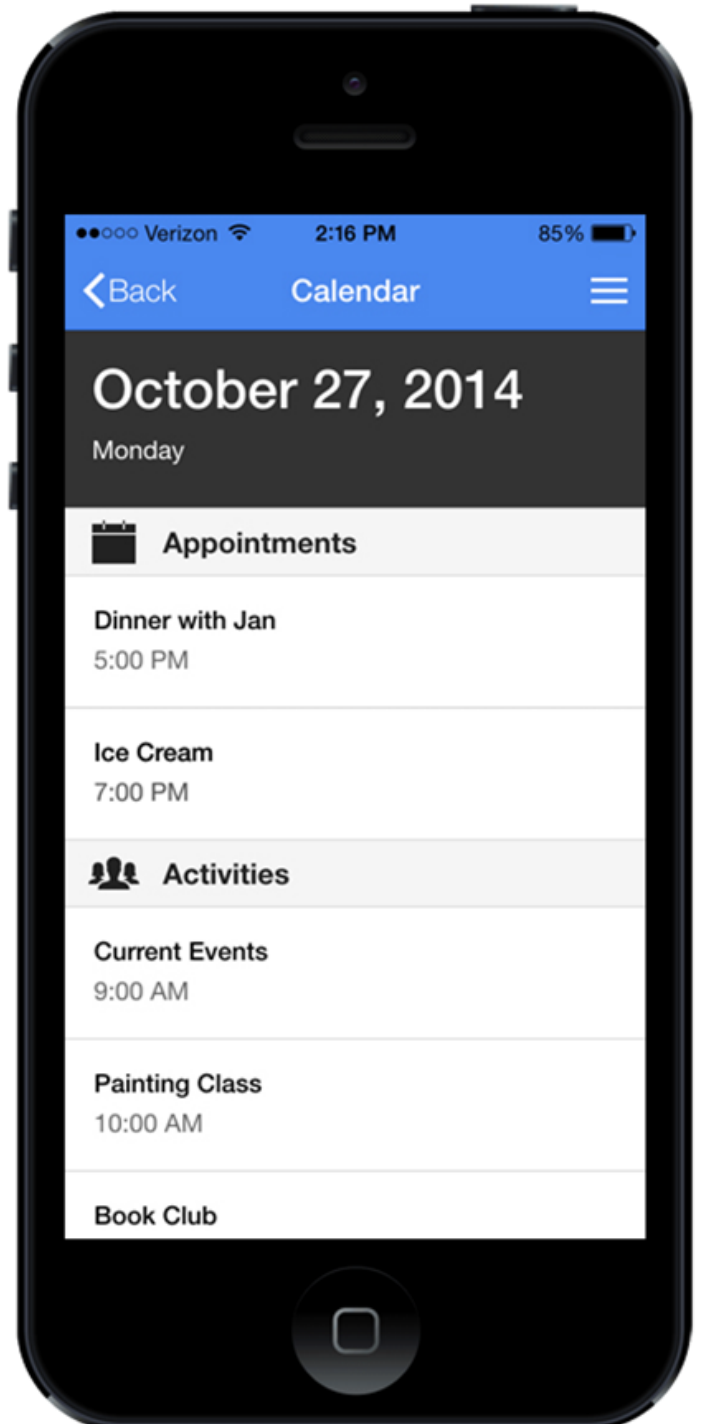

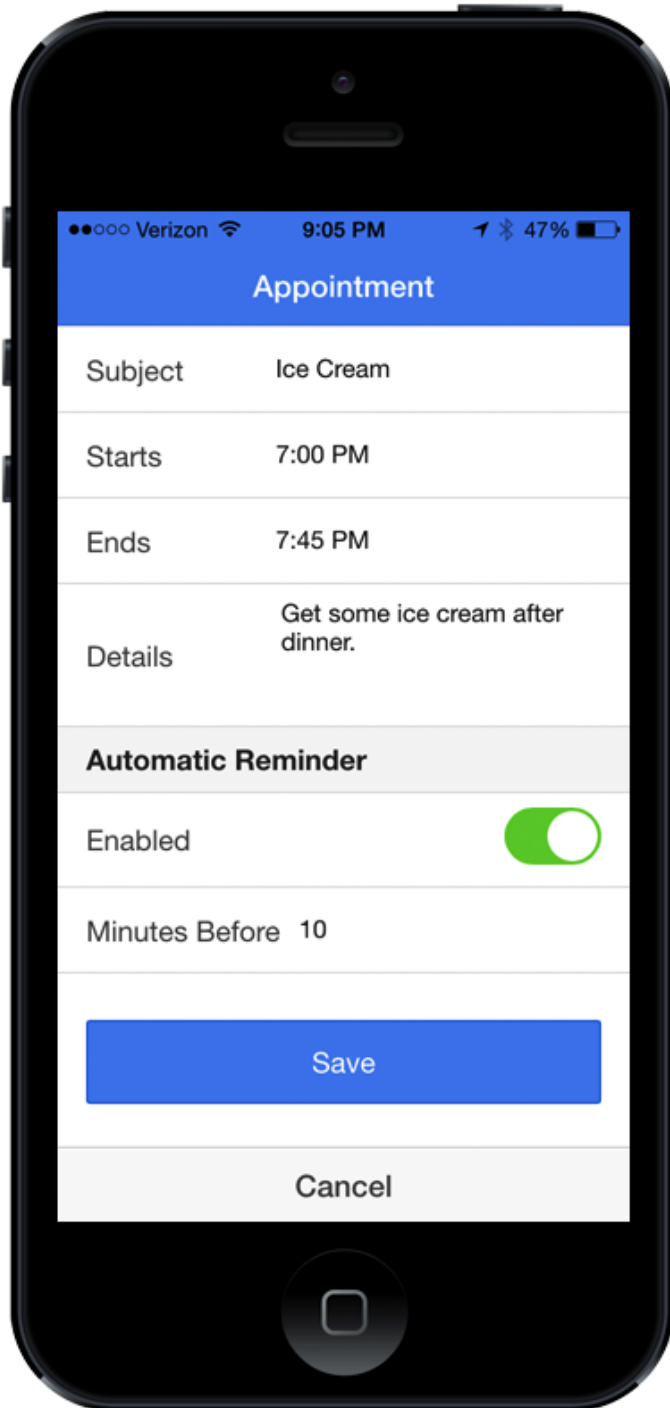

The LifeShare App also allows you to see both personal and facility activity calendars. This includes the dining menu, activities schedule, and also any appointments that you have set for your loved one.

Example: Dinner with Jan at 5:00

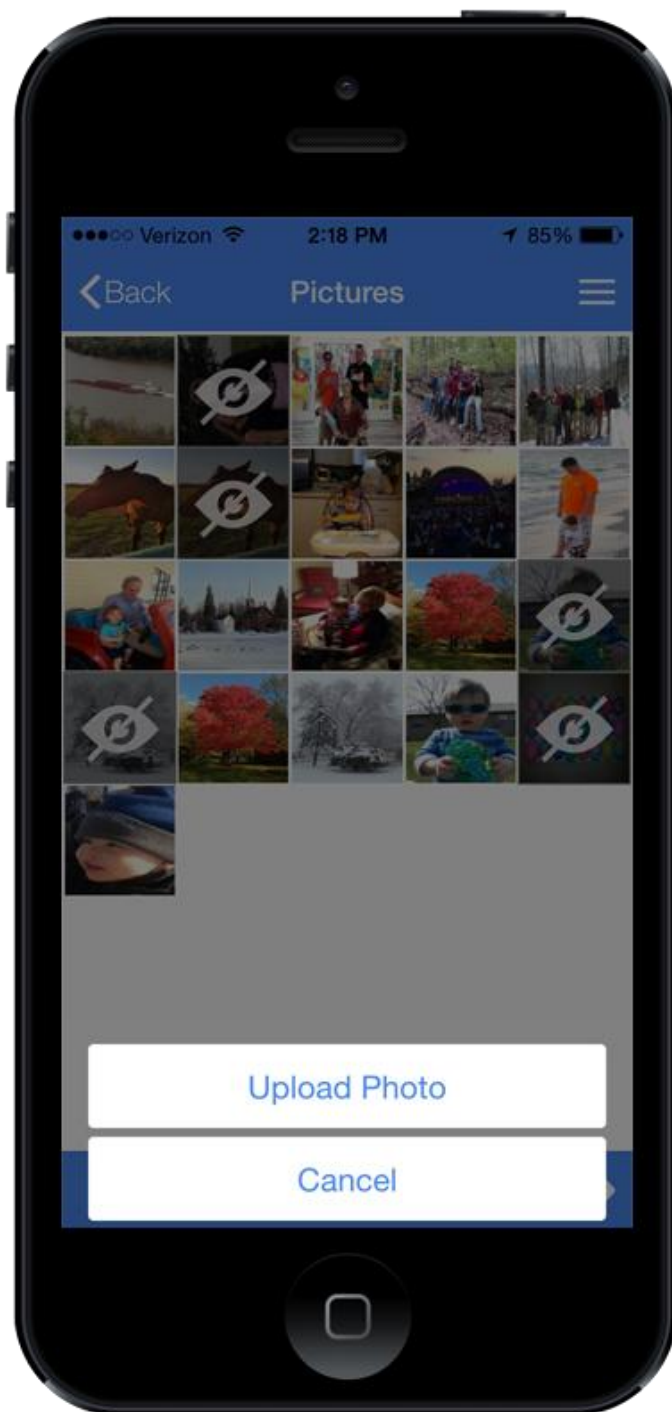

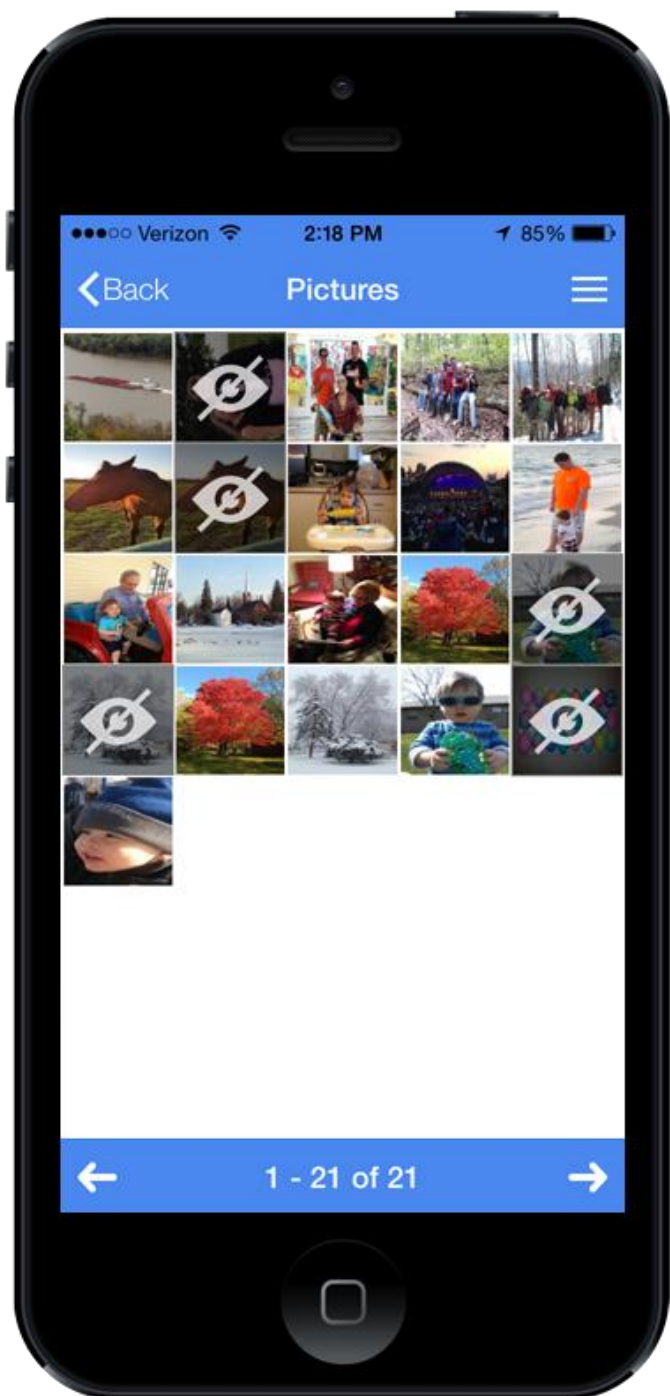

## Setting an Appointment Reminder

You can set automatic reminders for appointments that you have created. This will automate a phone call or text message to your loved one's LifeShare account to remind them of appointments.

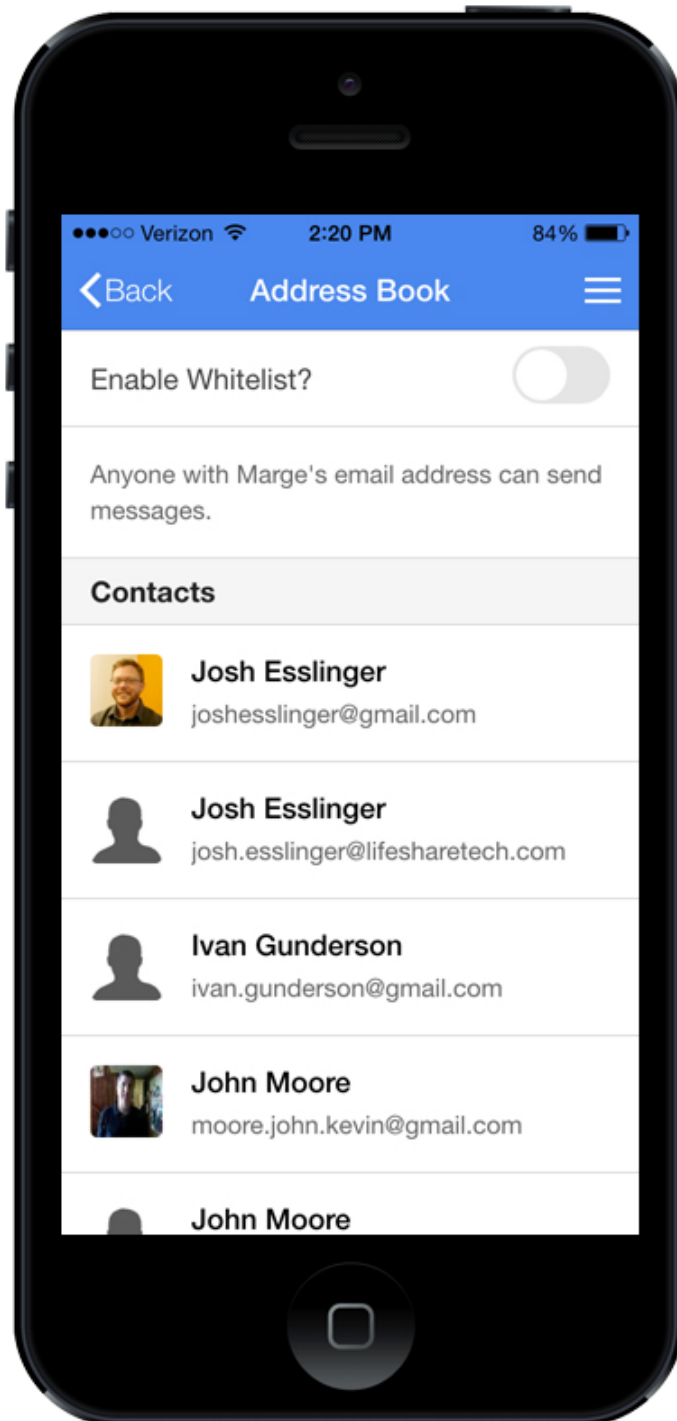

## Managing Pictures

The LifeShare App also allows you to determine which pictures are shown on your loved one's LifeShare through the "Memories" channel. You can also upload photos directly to the memories channel from this page as well.

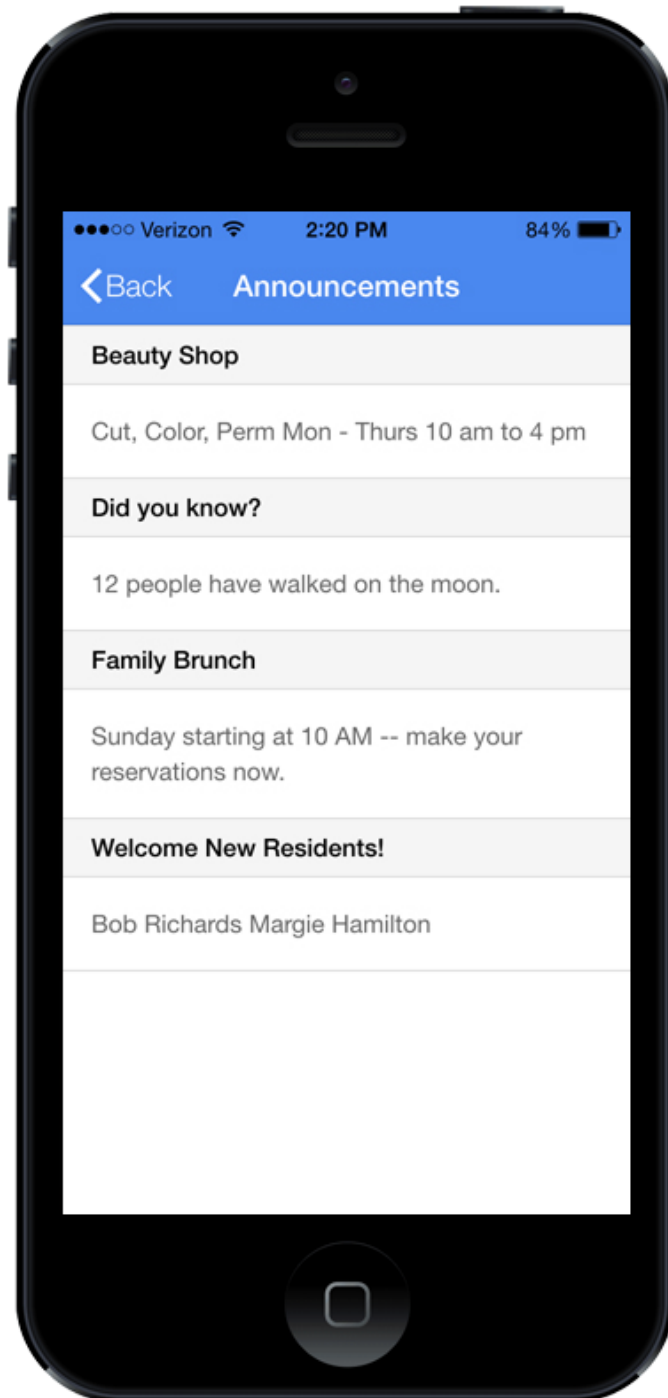

## Address Book

You can also choose who can send messages to the LifeShare account by enabling the Whitelist feature.

## Announcements

You can also view announcements that have been created by the staff of the facility.

## Additional Support

You can reach us at (317) 825-0320 or [support@lifesharetech.com](mailto:support@lifesharetech.com) if you have questions or need assistance.
