

Activity Resource: Group Game Activity For Memory Care

LifeShare Games

LifeShare CommunityShare provides a number of games that can serve as great group activities. These not only provide group fun and competition but can also foster reminiscence and conversation. Additionally, these activities work on cognitive skills such as memory recall, attention, and visual/auditory processing.

How To Play a Game

All CommunityShare games can be accessed through the on-demand mode of Community Share. If the slideshow is currently playing, push the black LS button on the remote to get to the Home Channel. Choose the option "Play a Game." There are many game options from Chess to Name that Croon to Guess What. There is something for everyone!

Picking Games for Group Activities

We suggest the following games for teamwork group activities for Memory Care:

Name that Croon- listen to music and guess the song/artist

Cosmic Patterns- memorize where the stars are hidden

Guess What*- identify who or what is in the picture

We suggest the following games for turn-taking group activities for Memory Care:

Word Search- find the hidden words from a category

Math Monsters- answer math problems to save the school from monsters

Chasm- match colors and shapes to move across the bridge

Here is additional game recommended for Memory Care:

Tic Tac Toe- the timeless favorite
